

CHILDREN'S CANCER CENTER HOSTS SOAR~ SURVIVING ONCOLOGY AND READJUSTING GROUP

The cancer treatments are over. No more chemo. The clinic appointments are scheduled further part.

So why am I still so stressed?

The Children's Cancer Center recognizes that even though the medical treatments are finished, parents still have concerns and issues. SOAR groups are held quarterly at CCC and feature a guest speaker who provides resources & insight to help with those post-treatment concerns. Nothing will be like it once was before diagnosis. CCC hopes to help by providing opportunities for families to gather and receive support of others as well as helpful information.

SOAR groups address issues such as:

- ◇ Late Effects
- ◇ Post Traumatic Stress
- ◇ School/Education
- ◇ Fertility
- ◇ Art Therapy & Coping Techniques

Dinner and supervised activities for the kids are provided at no charge.

2018 Dates are:

January 18th 6-8pm

April 12th 6-8pm

July—12th 6-8pm

October 11th 6-8pm
